RE: Territory Announcement

Dear Industry Partners,

Effective August 12, 2024, Quantum Lighting will represent the Montana and Wyoming territory previously held by Illumination Systems North. Through strategic acquisition and a friendly transfer with Illumination Systems Incorporated, Quantum will continue to represent the line card of Illumination Systems North. This move does not encompass any territory in South Dakota. The transition includes the retention of key market employees. Quantum is excited about the growth and partnership with Cooper Lighting Solutions and other strategic manufacturers. We look forward to continuing strong relationships in the market.

Headquartered in Salt Lake City, Quantum brings a wide range of backgrounds and electrical industry experience, resulting in a team focused on excellence and best-in-class customer service. Our market approach is based on an ambitious growth mindset and prioritizing long term relationships with positive outcomes. With the help of our manufacturing partners, we offer complete and competitive lighting and control solutions for projects of any size.

Here is how you can reach us:
